Under its oversight duties, the Depositary is pursuant to Article 34 (1) of the law of 2010 required to:

1) ensure that the sale, issue, repurchase, redemption and cancellation of Shares effected on behalf of the Company are carried out in accordance with Luxembourg laws and the Articles of Incorporation,

2) ensure that the Net Asset Value of the Shares is calculated in accordance with Luxembourg laws and the Articles of Incorporation,

3) carry out the instructions of the Company unless they conflict with Luxembourg laws or the Articles of Incorporation,

4) ensure that, in transactions involving the Company's assets, the consideration is remitted to the Company within the usual time limits,

5) ensure that the Company's income is allocated in accordance with Luxembourg laws and the Articles of Incorporation.

The overriding objective of the Depositary is to protect the interests of the Shareholders, which always prevail over any commercial interests.

The Depositary will also ensure that cash flows are properly monitored in accordance with the law of 2010 as amended and the Depositary Bank and Principal Paying Agent Agreement.

Moreover, the Depositary is required to pay for the securities purchased against delivery of the same, deliver the securities sold against collection of their sales price, collect the dividends and interest produced by the Company's assets and exercise the subscription and attribution rights attached thereto.

The Depositary has been authorized by the Company to delegate its safekeeping duties (i) to delegates in relation to other assets and (ii) to sub-custodians in relation to financial instruments and to open accounts with such sub-custodians.

An up to date description of any safekeeping functions delegated by the Depositary and an up to date list of the delegates and sub-custodians may be obtained, upon request, from the Depositary or via the following website link: http://gmi.rbcts.com/rt/gss.nsf/Royal+Trust+Updates+Mini/53A7E8D6A49C9AA285257FA8004999BF?opendocument.

The Depositary shall act honestly, fairly, professionally, independently and solely in the interests of the Company and the Shareholders in the execution of its duties under the law of 2010 as amended and the Depositary Bank and Principal Paying Agent Agreement.

From time to time conflicts of interests may arise between the Depositary and the delegates, for example where an appointed delegate is an affiliated group company which receives remuneration for another custodial service it provides to the Company. On an ongoing basis, the Depositary analyses based on applicable laws and regulations any potential conflicts of interests that may arise while carrying out its functions. Any identified potential conflict of interest is managed in accordance with the Depositaries’ conflicts of interests’ policy which is subject to applicable laws and regulation for a credit institution according to and under the terms of the Luxembourg law of 5 April 1993 on the financial services sector.

Further, potential conflicts of interest may arise from the provision by the Depositary and/or its affiliates of other services to the Company, the Management Company
and/or other parties. For example, the Depositary and/or its affiliates may act as the
depository, custodian and/or administrator of other funds. It is therefore possible that
the Depositary (or any of its affiliates) may in the course of its business have
conflicts or potential conflicts of interest with those of the Company, the
Management Company and/or other funds for which the Depositary (or any of its
affiliates) act.

The Depositary has implemented and maintains a management of conflicts of
interests' policy, aiming namely at:

- Identifying and analysing potential situations of conflicts of interests;
- Recording, managing and monitoring the conflicts of interests situations in:
  - Implementing a functional and hierarchical segregation making sure
    that operations are carried out at arm’s length from the Depositary
    business;

4 INVESTMENT OBJECTIVES AND POLICIES - RISK FACTORS

4.1 Investment Objective of the Company

The overall investment objective of the Company is to achieve long-term capital appreciation and growth through investments in world-wide equity, bond and other fixed or variable income markets. For each Sub-Fund, the Company will define additional investment criteria and targets, such as a particular geographic, sectorial or other specific investment objectives. The specific investment policy and objective is detailed for each Sub-Fund in the relevant appendix to this Prospectus.

The Company aims to provide subscribers with a choice of Sub-Funds investing in a wide range of transferable securities and featuring a diverse array of investment objectives.

The Company will generally not invest in securities markets or securities issues where the level and quality of fundamental investment research together with the degree of liquidity in the market or the specific issue suggest that such an investment commitment may be of a speculative nature. This would not prevent the company to invest in non-investment grade issues to deliver a risk adjusted return based on specific credit analysis and appraisal of market conditions.

The overall objective of the Company is to seek to minimise risk exposure through diversification.

The Company gives the subscribers direct access to professionally managed and diversified portfolios.

Individual subscribers may participate in an investment with a substantial amount of funds invested; they are therefore able to take advantage of investment terms normally only available to larger professional investors.

The Company may also seek to protect and enhance the asset value of its different Sub-Funds through hedging strategies consistent with the Company's investment objectives by utilising in general derivatives like currency options, forward contracts and futures contracts as detailed in section 14 “Risk Management” of this Prospectus.

Trading in futures and options can achieve high profits but also entails high risks. The options and futures markets are extremely volatile, the price trend resulting from offer and demand on these markets being subject to certain accidental factors which are difficult to foresee.

The investments of the Company are subject to normal market fluctuations and, accordingly, it should be emphasised that the price of shares in any of the Sub-Funds, and their income, can vary.

The Company shall always comply with the limits set forth in section 13 “Investment Restrictions” of this Prospectus.

In addition, as a matter of hedging strategies, the Board of Directors may, for each Sub-Fund, make use of financial derivatives instruments as detailed in section 14 “Risk Management” of this Prospectus.

No Sub-Fund of the Company does use any techniques and instruments relating to transferable securities and money market instruments, such as securities lending, repurchase and reverse repurchase transactions, buy-sell back or sell-buy back transactions, for the purposes of efficient portfolio management.
No Sub-Fund of the Company does further use any other instruments as margin lending transactions or total return swaps falling into the scope of the Regulation (EU) 2015/2365 of 25 November 2015 on transparency of securities financing transactions and of reuse (“SFTR”).

4.2 Investment Risks

The investments of the Company are subject to normal market fluctuations and, accordingly, it should be emphasised that the price of assets in any of the Sub-Funds and the income from them, can fluctuate. Changes in exchange rates may also cause the value of Shares in the investor’s base currency to go up or down.

Although the Board of Directors makes every effort to achieve the investment objectives of the Company and its Sub-Funds to the best of its knowledge, no guarantee can be given as to whether the investment objectives will be achieved. As a result, the Net Asset Value of the Shares may be higher or lower, and therefore different levels of positive as well as negative income may be earned.

High yield bonds

Investments in non-investment grade issues also known as high yield bonds, are from issuers - generally corporations - that are considered to be at greater risk of not paying interest and/or returning principal at maturity. High yield securities are considered primarily speculative with respect to the issuer's continuing ability to make principal and interest payments, and may be more volatile than higher-rated securities of similar maturity due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments and can be difficult to resell. In addition, high yield bonds involve greater risk of default or price changes due to changes in the credit quality of the issuer.

Emerging Market Countries

Investments in transferable securities of emerging market countries are subject to various risks with regard to the rapid economic development which some of these countries are experiencing. In this respect no assurance can be given that this process of development will continue during the years to come.

The degree of market regulation in these markets is generally lower than in more developed markets. As a rule, transferable securities of emerging market countries are substantially less liquid than transferable securities of the key markets. This may have negative effects on determining the time and price for the purchase or sale of transferable securities. In general, companies of emerging market countries are not subject to accounting, auditing and financial reporting standards or requirements comparable to those existing in the key markets. Investments in emerging market countries may be influenced by political, economic or foreign policy changes. The ability of some issuers to repay the principal debt and interests may be uncertain, and no assurance can be given as to the possible insolvency of a particular issuer.

Investments in emerging market countries are subject to an increased risk in relation to the ownership and custody of transferable securities.

Generally, investments in emerging market countries involve greater risks due to the lack of an appropriate system for the transfer, price calculation and accounting of the transferable securities and to their custody and record keeping.

Debt Securities Issued Pursuant to Rule 144A under the US Securities Act of 1933
Sub-Funds may also invest in debt securities of corporations issued under Rule 144A under the US Securities Act of 1933. SEC Rule 144A provides a safe harbour exemption from the registration requirements of the US Securities Act of 1933 for resale of restricted securities to qualified institutional buyers, as defined in the rule. The advantage for investors is higher returns due to lower administration charges. However, dissemination of secondary market transactions in rule 144A securities is restricted and only available to qualified institutional buyers. This might increase the volatility of the security prices and, in extremes conditions, decrease the liquidity of a particular rule 144A security.

Over-the-counter’ (OTC) financial derivative instruments

In accordance with its investment objective and policy, a Sub-Fund may trade ‘over-the-counter’ (OTC) financial derivative instruments such as non-exchange traded futures and options, forwards, swaps (including total return swaps) or contracts for difference. Where a Sub-Fund enters into OTC derivative transactions it is exposed to increased credit and counterparty risk, which the Investment Manager may aim to mitigate by the collateral arrangements. Entering into transactions on the OTC markets will expose the Sub-Fund to the credit of its counterparties and their ability to satisfy the terms of the contracts. In the event of a bankruptcy or insolvency of a counterparty, the Sub-Fund could experience delays in liquidating the position and significant losses, including declines in the value of its investments during the period in which the Sub-Fund seeks to enforce its rights, inability to realise any gains on its investments during such period and fees and expenses incurred in enforcing its rights. There is also a possibility that the above agreements and derivative techniques are terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated.

4.3 CRS

Capitalized terms used in this section should have the meaning as set forth in the CRS-Law (as defined below), unless provided otherwise herein.

Under the terms of the CRS-Law, the Company is likely to be treated as a Luxembourg Reporting Financial Institution. As such, as of 30 June 2017 and without prejudice to other applicable data protection provisions, the Company will be required to annually report to the Luxembourg tax authorities (“LTA”) personal and financial information related, inter alia, to the identification of, holdings by and payments made to (i) certain investors qualifying as Reportable Persons and (ii) Controlling Persons of certain non-financial entities (“NFEs”) which are themselves Reportable Persons. This information, as exhaustively set out in Annex I of the CRS-Law (the “Information”), will include personal data related to the Reportable Persons.

The Company’s ability to satisfy its reporting obligations under the CRS-Law will depend on each Shareholder providing the Company with the Information, along with the required supporting documentary evidence. In this context, the Shareholders are hereby informed that, as data controller, the Company will process the Information for the purposes as set out in the CRS-Law. The Shareholders
undertake to inform their Controlling Persons, if applicable, of the processing of their Information by the Company.

The Shareholders are further informed that the Information related to Reportable Persons within the meaning of the CRS-Law will be disclosed to the LTA annually for the purposes set out in the CRS-Law. In particular, Reportable Persons are informed that certain operations performed by them will be reported to them through the issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the LTA.

Similarly, the Shareholders undertake to inform the Company within thirty (30) days of receipt of these statements should any included personal data be not accurate. The Shareholders further undertake to inform the Company within thirty (30) days of, and provide the Company with all supporting documentary evidence of any changes related to the Information after occurrence of such changes.

Any Shareholder that fails to comply with the Company’s Information or documentation requests may be held liable for penalties imposed on the Company or the Manager and attributable to such investor’s failure to provide the Information.

4.4 US Foreign Account Tax Compliance Requirements

The Company may be subject to regulations imposed by foreign regulators, in particular, the United States Hiring Incentives to Restore Employment Act (Hire Act) which was enacted into U.S. law in March 2010. It includes provisions generally known as FATCA. FATCA provisions generally impose a reporting to the U.S. Internal Revenue Service of non-U.S. financial institutions that do not comply with FATCA and U.S. persons’ (within the meaning of FATCA) direct and indirect ownership of non-U.S. accounts and non-U.S. entities. Failure to provide the requested information will lead to a 30% withholding tax applying to certain U.S. source income (including dividends and interest) and gross proceeds from the sale or other disposal of property that can produce U.S. source interest or dividends.

Under the terms of FATCA, the Company will be treated as a Foreign Financial Institution (within the meaning of FATCA). As such, the Company may require all Shareholders to provide documentary evidence of their tax residence and all other information deemed necessary to comply with the above mentioned regulations.

Should the Company becomes subject to a withholding tax as a result of FATCA, the value of the Shares held by all Shareholders may be materially affected.

The Company and/or its Shareholders may also be indirectly affected by the fact that a non U.S. financial entity does not comply with FATCA regulations even if the Company satisfies with its own FATCA obligations.

Despite anything else herein contained, the Company shall have the right to:

- withhold any taxes or similar charges that it is legally required to withhold by applicable laws and regulations in respect of any shareholding in the Company;
- require any investor or beneficial owner of the Shares to promptly furnish such personal data as may be required by the Company in its discretion in order to comply with applicable laws and regulations and/or to promptly determine the amount of withholding to be retained;
• divulge any such personal information to any tax authority, as may be required by applicable laws or regulations or requested by such authority; and

• delay payments of any dividend or redemption proceeds to an investor until the Company holds sufficient information to comply with applicable laws and regulations or determine the correct amount to be withheld.

4.5 Operational Risks

Operational risk means the risk of loss for the Company resulting from inadequate internal processes and failures in relation to people and systems of the Company, the Management Company and/or its agents and service providers, or from external events, and includes legal and documentation risk and risk resulting from the trading, settlement and valuation procedures operated on behalf of the Company.

4.6 Country risk linked to the custody

The investment managers may decide from time to time to invest in a country where the Depositary has no correspondent. In such a case, the Depositary will have to identify and appoint a local custodian following a respective due diligence. This process may take time and deprive in the meantime the investment manager of investment opportunities.

The Depositary will assess on an ongoing basis the custody risk of the country where the Sub-Fund’s assets are safekept. In many emerging markets, local custody and settlement services remain underdeveloped and there is a custody and transaction risk involved in dealing in such markets. In certain circumstances, the Sub-Fund may not be able to recover or may encounter delays in the recovery of some of its assets. Furthermore, to secure the investment, the investment manager may be required to sell the assets immediately at a less attractive price than the Sub-Fund would have received under normal circumstances, potentially affecting the performance of the Sub-Fund.

In accordance with the UCITS Directive, entrusting the custody of the Sub-Fund’s assets to the operator of a securities settlement system (“SSS”) is not considered as a delegation by the Depositary and the Depositary is exempted from the strict liability of restitution of assets. A central securities depositary (“CSD”) being a legal person that operates a SSS and provides in addition other core services, should not be considered as a delegate of the Depositary irrespective the fact that the custody of the Sub-Fund’s assets have been entrusted to it. There is however some uncertainty around the meaning to be given to such exemption, the scope of which may be interpreted narrowly by some supervisory authorities, notably the European supervisory authorities.

In certain circumstances, the Depositary may be required by local law to delegate safekeeping duties to local custodians subject to weaker legal and regulatory requirements or who might not be subject to effective prudential supervision, increasing thus the risk of a loss of the Sub-Fund’s assets held by such local custodians through fraud, negligence or mere oversight of such local custodians. The costs borne by the Sub-Fund in investing and holding investments in such markets will generally be higher than in organised security markets.
4.7 Pledge

As a continuing security for the payment of its duties under the Depositary Agreement (like the fees to be paid to the Depositary for its services or also overdraft facilities offered by the Depositary), the Depositary shall have a first priority pledge granted by the Company over the assets the Depositary or any third party may from time to time hold directly for the account of the Company, in any currency.

4.8 Cash

Under the UCITS Directive, cash is to be considered as a third category of assets beside financial instruments that can be held in custody and other assets. The UCITS Directive imposes specific cash flow monitoring obligations. Depending on their maturity, term deposits could be considered as an investment and consequently would be considered as other assets and not as cash.

5 THE SHARES

The assets of its various Sub-Funds represent the Company’s capital. Subscription proceeds by investors are invested in assets of the relevant Sub-Fund.

The Shares of each Sub-Fund may, as the Board of Directors shall so determine from time to time, be issued in one or more classes of Shares (each such class being referred to herein as a “Class”), whose assets shall be commonly invested pursuant to a specific investment policy of the respective Sub-Fund, but where a specific sales and redemption charge structure, fee structure, dividend policy, hedging policy, or Reference Currency is applied to each such Class, or which may only be subscribed by certain types of investors.

For each Sub-Fund, the Board of Directors may elect to issue Shares in either registered and/or bearer form.

The Appendices to this Prospectus provide additional information as to what form of Shares is offered to investors for a given Sub-Fund.

In the absence of a request for Shares to be issued in any particular form, subscribers will be deemed to have requested that their Shares be issued in registered form without share certificates and that a confirmation of shareholding will be issued and delivered instead. Registered Shares may be issued with fractions up to three decimals.

If bearer Shares are issued, share certificates may be issued, as decided by the Board of Directors, in denominations of 1, 10, 100 and 1,000 Shares. For the time being, bearer Shares will no longer be available for any of the Company's Sub-Funds. Existing bearer Shares may be retained, exchanged for Registered Shares or Global Certificates without charge, or redeemed according to the terms of this Prospectus.

Delivery of share certificates to Shareholders, if specifically requested, is made at the risk and at the expense of those Shareholders. Unless instructions have been received to the contrary, share certificates are delivered to the address quoted by the applicant(s) on the application form, or to the first-named applicant in the case of joint applicants.

The Company however recommends that subscribers hold the Shares in registered form for the purposes of security and ease of dealing. The Shares so issued may be redeemed, converted or transferred upon written instruction to the Company. If share certificates have been issued, any request for redemption or conversion must be accompanied by the
respective certificates, and, if coupon sheets have been issued, by the entire set of associated coupons as at the date of the request for conversion or redemption.

The ownership of Shares is evidenced by possession of the share certificate(s), including the associated coupons (if any), or by an entry in the Company's register of Shareholders. The Company shall consider the person in whose name the Shares are registered as their full owner.

Each Share includes the right to a participation in the profits and results of the respective Sub-Fund or Class.

Each entire Share entitles its owner to a vote, which he may exercise at the general meeting of Shareholders or at other meetings of the respective Sub-Fund, either in person or through a proxy. The Shares do not include rights of priority or subscription rights. Nor are they now or will they in the future be associated with any outstanding options or special rights.

In the case of joint applicants, the Company is authorised to accept instructions relating to voting rights, transfers, conversions and redemptions from the first-named applicant in the application unless it receives instructions to the contrary.

The Company draws the investors' attention to the fact that any investor will only be able to fully exercise his investor rights directly against the UCITS, notably the right to participate in general shareholders' meetings if the investor is registered himself and in his own name in the shareholders' register of the UCITS. In cases where an investor invests in the UCITS through an intermediary investing into the UCITS in his own name but on behalf of the investor, it may not always be possible for the investor to exercise certain shareholder rights directly against the UCITS. Investors are advised to take advice on their rights.

The Shares are transferable without restriction unless the Board of Directors has restricted ownership of the Shares to specific persons or organisations.

6 HOW TO APPLY FOR SHARES

6.1 General

Applications for subscriptions of Shares should be made directly to the Company and/or the Transfer Agent of the Company in Luxembourg.

The Company reserves the right to reject any application for subscription in full or in part.

In case of joint applicants, the application must include the signatures of all applicants.

Prospective investors should complete the Application Form attached to this Prospectus. Application for subscription may also be made in writing, provided that all information required in the Application Form is provided.

6.2 Procedure

Shares are issued according to this Prospectus and the respective appendix, at a price equal to the Net Asset Value per Share of the relevant Sub-Fund or Class, plus a subscription fee of maximum 5% (the “Subscription Price”) in favor of the
Distributor or Sub-Distributors, as detailed for each Sub-Fund in the appendix to this Prospectus.

Unless otherwise provided for in the relevant appendix to this Prospectus, applications received by the Transfer Agent of the Company in Luxembourg on a Valuation Day before the Cut-off Time, as defined for each Sub-Fund in the relevant appendix to this Prospectus, shall be dealt with on the same Valuation Day at the Subscription Price of the relevant Sub-Fund or Class prevailing on that Valuation Day. Any applications received thereafter will be processed on the next Valuation Day.

6.3 Payments

The Subscription Price is payable in the Reference Currency of the relevant Sub-Fund or Class according to the instructions as detailed in the appendix to this Prospectus. However, the Board of Directors may, for each Sub-Fund or Class, determine additional currencies (hereinafter the “Payment Currencies”) in which the Subscription Price may be paid. Such Payment Currencies are indicated for each Sub-Fund in the relevant appendix to this Prospectus. Payments must be made either by cheque or by bank transfer to the bank account of the Company with the Depositary, as indicated in the Application Form. Any payment must clearly identify the name of the respective Sub-Fund or Class, the investor wishes to invest in.

Transfer of funds should be made under arrangements giving the Company notice of the amount transferred and the value date at which it will be available. When payment is made by cheque, Shares will not be issued until cleared funds are received.

6.4 Contribution in Kind

The Board of Directors may agree to issue Shares as consideration for a contribution in kind of transferable securities, in compliance with the conditions set forth by Luxembourg law, in particular the obligation to deliver a valuation report from the auditor of the Company and provided that such transferable securities comply with the investment objective and policy of the relevant Sub-Fund. Any costs incurred in connection with a contribution in kind of transferable securities shall be borne by the relevant Shareholders.

6.5 Data Protection

The Company, the Management Company, the Registrar and Transfer Agent or any other agent used by them agree to keep all information concerning the investor(s) confidential unless required to disclose such information to third parties by applicable law or by formal instruction of the investor(s) or as further described in this section. Any information relating to it (them), including personal data such as identification data, account information, contractual and other documentation, transactional information, details of shareholding either given in the application and account opening form or otherwise held by the Company, as well as, where relevant the Management Company or the Registrar and Transfer Agent, acting independently as data controllers, on application orders or at any other time (the “Investor Information”), will be stored in digital form or otherwise and processed in accordance with the Luxembourg law on data protection dated 2 August 2002, as amended. The investor(s) acknowledge(s) that:

(i) the Company, as well as, where relevant the Management Company and the Registrar and Transfer Agent and those companies to which the Company, the Management Company or the Registrar and Transfer Agent
delegate distribution or investor servicing duties, the distributors or any other service providers such as representatives or third-party agents will collect, retain, maintain and disclose Investor Information in accordance with applicable laws, including potentially to their group’s worldwide offices or affiliates (the “Data Processors”).

(ii) The Investor Information supplied will enable the Company as well as, where relevant, the Management Company, the Registrar and Transfer Agent, and any of the Data Processors, to administer the investors’ account and provide it with appropriate services.

(iii) the Company, the Registrar and Transfer Agent, as well as, where relevant, the Data Processors may be required by applicable laws and regulation to provide the Investor Information to tax, supervisory or other authorities in various jurisdictions, in particular those where (i) the Company is or is seeking to be registered for public or limited offering of its shares, (ii) investors are resident, domiciled or citizens, (iii) the Company, as well as, where relevant the Management Company, the Registrar and Transfer Agent and those companies to which the Company, the Management Company or the Registrar and Transfer Agent delegate distribution or investor servicing duties, the distributors or any other service providers such as representatives or third-party agents is or is seeking to be registered, licensed or otherwise authorised to invest. The Management Company, the Company or the Registrar and Transfer Agent shall not be liable for any consequences resulting from such disclosure.

(iv) Investor Information may be transferred to or stored in a country that does not have equivalent data protection laws to those of the European Union and that Investor Information may be disclosed by the Company, the Management Company, the Registrar and Transfer Agent or any other agent used by them to external parties such as the Company’s sponsor, the Company’s authorized distributors or as deemed necessary by the Company, the Management Company, the Registrar and Transfer Agent or their data processors for the provision of enhanced shareholders’ related services and, particularly in the case of registrar, for the delegation of data processing activities as part of its transfer and registrar agent duties and therefore being potentially subject to the scrutiny of regulatory or other authorities outside Luxembourg. When Investor Information is transferred to countries which are not deemed as EU equivalent in terms of data protection regulation, it is legally required that the responsible data controller, such as for example the Company, the Management Company, the Registrar and Transfer Agent or any other agent takes appropriate measures.

(v) Investor Information, once disclosed by the Registrar and Transfer Agent shall be processed by the recipient under the control of the Registrar and Transfer Agent and is subject to professional secrecy and confidentiality standards applicable to such recipient.

The investor(s) is/are aware that, notwithstanding the foregoing, it will be able, at any time, to (i) refuse the collecting, processing and sharing, (ii) have access, (iii) require correction or (iv) deletion of such information, by contacting the Company, the Management Company or the Registrar and Transfer Agent using the contact details mentioned on the application form. As such action according to (i) to (iv) may affect the existence or continuation of the provision of services by the Company, the Management Company, the Registrar and Transfer Agent or any other agent used
by them, the investor(s) acknowledge(s) that neither the Company, the Management Company, the Registrar and Transfer Agent nor any other agent used by them will be liable for any loss or damage incurred by the investor(s) in the context of such action according to (i) to (iv) by the Management Company. The Company, the Management Company, the Registrar and Transfer Agent or any other agent used by them will however reserve the right to redeem the participation of the investor(s) to ensure full compliance with the applicable laws and regulations and remain liable for the proper handling and fulfilment of its data protection duties.

7 HOW TO REDEEM SHARES

7.1 General

Any Shareholder has the right at any time to have all or part of its Shares redeemed by the Company.

Redemption requests shall be made directly to the Company and/or the Transfer Agent of the Company in Luxembourg.

Any request for redemption shall be irrevocable except during any period during which the determination of the Net Asset Value of the relevant Sub-Fund is suspended by the Company, as described in section 10.2 “Suspension of the determination of the Net Asset Value”. In the absence of revocation, redemptions will be effected on the first applicable Valuation Day following the end of the suspension.

The Redemption Price of Shares may be higher or lower than the Subscription Price initially paid by the Shareholder at the time of subscription, depending on whether the Net Asset Value of the Sub-Fund has appreciated or depreciated.

If, as a result of any request for redemption, the investment held by any Shareholder in a class or Sub-Fund would fall below the minimum holding amount indicated in the relevant appendix to this Prospectus, the Company may treat such request as a request to redeem the entire shareholding of such Shareholder.

7.2 Procedure

Redemption requests must state the number of Shares, their form, the Class and the name of the Sub-Fund, as well as necessary references enabling the payment of the redemption proceeds. For redemption payments, the Transfer Agent will take into account the currency in which the relevant Sub-Fund is denominated. No redemption fee will be charged.

If share certificates have been issued, redemption requests must be accompanied by the share certificates, the appropriate coupons (if any), and the documents that evidence a transfer of Shares (if any).

Unless otherwise provided for in the relevant appendix to this Prospectus, redemption requests received by the Transfer Agent of the Company in Luxembourg on a Valuation Day before the cut-off time as defined for each Sub-Fund in the relevant appendix to this Prospectus shall be dealt with on the same Valuation Day at the Redemption Price of the relevant Sub-Fund prevailing on that Valuation Day. Any redemption requests received thereafter will be processed on the next Valuation Day.
7.3 Payments

The Redemption Price is payable in the Reference Currency of the relevant Sub-Fund or Class, provided that all the documents evidencing the redemption as mentioned above have been received by the Transfer Agent of the Company.

The settlement period for payments of redemption proceeds is set out for each Sub-Fund in the relevant appendix.

7.4 Deferral of Redemptions

The Company shall not be bound to redeem and convert on any Valuation Day more than 10% of the number of Shares of a specific Sub-Fund outstanding on such Valuation Day. Redemptions and conversions may accordingly be deferred by the Company on a pro rata basis and will be dealt with on the next Valuation Day (but subject always to the foregoing limit). For this purpose, requests for redemption and conversion so deferred will be given priority to subsequently received requests.

7.5 Redemption in Kind

The Company shall have the right, subject to agreement by the relevant Shareholder, to satisfy payment of the Redemption Price, partly or entirely, in the form of assets by allocating to the redeeming Shareholder assets out of the relevant Sub-Fund's portfolio.

Such redemption in kind must be equal in value, as of the relevant Valuation Day on which the Redemption Price is calculated, to the value of the Shares to be redeemed.

The nature and type of assets to be transferred to the redeeming Shareholder in such case shall be determined on a fair and reasonable basis and without prejudicing the interests of the other Shareholders of the relevant Sub-Fund, and the valuation used for such redemption in kind shall be confirmed by a special report of the auditor of the Company.

The costs of any such redemption in kind shall be born exclusively by the redeeming Shareholder.

8  How To Convert Shares

8.1 General

Any Shareholder may request the conversion of all or part of his Shares of any Sub-Fund and/or Class (the “Initial EDM Sub-Fund”) into Shares of any other existing Sub-Fund and/or Class (the “New EDM Sub-Fund”) on any Valuation Day that is common to the Initial and the New EDM Sub-Fund (the “Common Valuation Day”). Restrictions about conversion between Sub-Funds may be found in the relevant Appendices of the respective Sub-Funds.

Further, retail Shares may not be converted into institutional Shares and vice versa.

In converting Shares of a class or Initial EDM Sub-Fund for Shares of another class or New EDM Sub-Fund, a Shareholder must meet the applicable minimum initial investment requirements imposed by the acquired New EDM Sub-Fund.

If, as a result of any request for conversion, the investment held by any Shareholder in a class or Initial EDM Sub-Fund would fall below the minimum holding amount, if any, indicated in the relevant appendix to this Prospectus in the section “Offering of
Shares", the Company may treat such request as a request to convert the entire shareholding of such Shareholder.

Conversion requests shall be made directly to the Company and/or the Transfer Agent of the Company in Luxembourg.

Any request for conversions shall be irrevocable except during any period when the determination of the Net Asset Value of the relevant Sub-Fund is suspended by the Company, as described in section 10.2 “Suspension of the determination of the Net Asset Value”. In the absence of revocation, conversions will occur as of the first applicable Common Valuation Day after the end of suspension.

8.2 Procedure

Conversion requests must state the number of Shares, their form, the Class and the Sub-Fund, to be converted as well as the form and Class of Shares to be issued in the New EDM Sub-Fund. If more than one New EDM Sub-Fund is selected, the proportion or, alternatively, amount or number of Shares to be converted out of the Initial EDM Sub-Fund must also be indicated.

If Share certificates have been issued, conversion requests must be accompanied by the Share certificates, the appropriate coupons (if any) and the documents that evidence a transfer of Shares (if any).

Unless otherwise provided for in the relevant appendix to this Prospectus, conversion requests received by the Transfer Agent of the Company in Luxembourg on a Common Valuation Day before the Cut-off Time as defined for each Sub-Fund in the relevant appendix to this Prospectus, shall be dealt with at the applicable Net Asset Value per Share of the same Common Valuation Day. Any conversion requests received thereafter will be processed on the next Common Valuation Day. The Board of Directors reserves the right to reject conversion requests at its sole discretion.

A conversion order may require the conversion of currency from one Sub-Fund to another. In such event, the number of Shares of the New EDM Sub-Fund obtained on a conversion will be affected by the foreign currency exchange rate, if any, applied to the conversion. The Company has established the following formula to determine the number of Shares of the New EDM Sub-Fund into which the Shares of the Initial EDM Sub-Fund will be converted:

\[ F = \frac{A \times (B-C) \times E}{D} \]

with

A being the number of Shares of the Initial EDM Sub-Fund (or Class) to be converted;

B being the Net Asset Value per Share of the Initial EDM Sub-Fund (or Class) as applicable on the Common Valuation Day;

C being the conversion fee as described above;

D being the Net Asset Value per Share of the New EDM Sub-Fund (or Class) as applicable on the Common Valuation Day;
E being the exchange rate between the Reference Currency of the Initial EDM Sub-Fund (or Class) and the Reference Currency of the New EDM Sub-Fund (or Class). If both Reference currencies are the same E will be equal to 1;

F being the number of Shares of the New EDM Sub-Fund obtained in the conversion.

Fractions of Shares of the New EDM Sub-Fund will only be issued to registered Shareholders.

The Board of Directors reserves the right to levy a conversion fee of maximum 0.50% in favor of the Initial EDM Sub-Fund. Such a fee, if any, is detailed for each Sub-Fund in the relevant appendix.

9 PREVENTION OF MARKET TIMING AND LATE TRADING PRACTICES

The Company does not allow investments which are associated with late trading or market timing practices, as such practices may adversely affect the interests of the shareholders.

9.1 Market Timing

In general, Market Timing is to be understood as an arbitrage method through which an investor systematically subscribes and redeems or converts Shares of the same investment fund within a short time period, by taking advantage of time differences and/or imperfections or deficiencies in the method of determination of the Net Asset Value of the investment fund.

Accordingly, the Board of Directors may, whenever it deems it appropriate, cause the Transfer Agent to reject an application for subscription and/or switching of Shares from investors whom the Board of Directors considers market timer and may, if necessary, take appropriate measures in order to protect the interests of the other investors. For these purposes, the Board of Directors may consider an investor's trading history and the Transfer Agent may combine Shares which are under common ownership or control.

9.2 Late Trading

In general, Late Trading is to be understood as the acceptance of a subscription, conversion or redemption order after the time limit fixed for accepting orders (cut-off time) on the relevant day and the execution of such order at the price based on the Net Asset Value applicable to such same day. Therefore, the subscriptions, conversions or redemptions are dealt with at an unknown Net Asset Value.

10 NET ASSET VALUE

10.1 Determination of the Net Asset Value

The Net Asset Value per Share will be calculated, except in circumstances of suspensions as described hereafter, for each Sub-Fund on each Valuation Day, at least twice a month, as determined in the relevant appendix to this Prospectus. If such a Valuation Day is not a Luxembourg bank business day (“Business Day”), the Net Asset Value per Share will be calculated on the next Business Day.

The Net Asset Value shall be expressed in the Reference Currency of the relevant Sub-Fund or Class as a per Share figure. It shall be determined as being the total
value of the assets of a Sub-Fund less its liabilities, divided by the total number of Shares outstanding in the relevant Sub-Fund.

However the Board of Directors may determine, for each Sub-Fund, other currencies in which the Net Asset Value per Share may be expressed. Such currencies, as the case may be, are indicated in the relevant appendix.

The basic accounting principles for determining the Net Asset Value of the Sub-Funds are set forth in the Articles of Incorporation, the material provisions of which provide as follows:

(1) the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Directors may consider appropriate in such case to reflect the true value thereof;

(2) the value of securities which are quoted or dealt in on any stock exchange shall be in respect of each security, the last known price, and where appropriate, the middle market price on the stock exchange which is normally the principle market for such security;

(3) securities dealt in on another regulated market are valued in a manner as near as possible to that described in the preceding paragraph;

(4) in the event that any of the securities held in any portfolio on the relevant Valuation Day are not quoted or dealt in on a stock exchange or another regulated market or, for any of the securities, no price quotation is available, or if the price as determined pursuant to sub-paragraphs 2) and/or 3) is not in the opinion of the Board of Directors representative of the fair market value of the relevant securities, the value of such securities will be determined based on the reasonably foreseeable sales price determined prudently and in good faith;

(5) all other assets will be valued at their respective fair values as determined in good faith by the Directors in accordance with generally accepted valuation principles and procedures.

If since the last Valuation Day there has been a material change in the quotations on the markets on which a substantial portion of the investments of the Company attributable to a particular Sub-Fund is listed or dealt in, the Directors may, in order to safeguard the interests of the Shareholders and the Company, cancel the first valuation and carry out a second valuation.

The Directors may also adopt, when circumstances so require, other valuation methods in accordance with generally accepted procedures.

The value of the assets denominated in a currency other than the currency of the relevant Sub-Fund will be converted at the rates of exchange prevailing in Luxembourg at the time of the determination of the corresponding Net Asset Value.

The total Net Asset Value of the Company is equal to the sum of the net assets of the various activated Sub-Funds translated into EUR at the rates of exchange prevailing in Luxembourg on the relevant Valuation Day.
The capital of the Company shall at any time be equal to the total Net Asset Value of the Company. The minimum capital of the Company, as required by the law of 2010, shall be EUR 1,250,000.-.

10.2 Suspension of the determination of the Net Asset Value

The Company may suspend the determination of the Net Asset Value of Shares of any particular Sub-Fund and the issue and redemption of the Shares in such Sub-Fund as well as the conversion from and to Shares of such Sub-Fund during:

(a) any period when any of the principal markets or stock exchanges on which a substantial portion of the investments of any Sub-Fund of the Company from time to time is quoted, is closed otherwise than for ordinary holidays, or during which dealings thereon are restricted or suspended;

(b) the existence of any state of affairs which constitutes an emergency as a result of which disposal or valuation of assets owned by any Sub-Fund of the Company would be impracticable;

(c) any breakdown in the means of communication normally employed in determining the price or value of any of the investments attributable to any Sub-Fund or the current prices or values on any market or stock exchange;

(d) any period when the Company is unable to repatriate funds for the purpose of making payments on the redemption of Shares of any Sub-Fund or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of Shares of any Sub-Fund cannot in the opinion of the Directors be effected at normal prices or rates of exchange;

(e) any period when the Company is being liquidated or as from the date on which notice is given of a meeting of Shareholders at which a resolution to liquidate the Company is proposed;

(f) following the suspension of the calculation of the net asset value per unit, the issue, redemption and/or the conversion at the level of a master fund in which a Sub-Fund invests in its quality as feeder fund of such master fund.

Any such suspension shall be published by the Company and shall be notified to Shareholders requesting subscription, redemption or conversion of their Shares by the Company at the time of the filing of their request for such subscription, redemption or conversion.

Such suspension as to any Sub-Fund shall have no effect on the determination of the Net Asset Value, the issue, redemption and conversion of the Shares of any other Sub-Fund if the circumstances referred to above do not exist in respect of the other Sub-Funds.

11 DIVIDENDS

The dividend policy of each Sub-Fund is described in the relevant appendix to this Prospectus.
12 CHARGES AND EXPENSES

12.1 Setting-up Costs

The fees and costs incurred in connection with the establishment and launch of any additional Sub-Fund shall be borne by the relevant Sub-Fund and shall be amortised over the first five (5) Financial Years following the launch of that Sub-Fund.

12.2 Management Company

Under the Management Company Agreement, the Management Company is entitled to a variable fee based on the net assets of the relevant Sub-Fund, calculated at a maximum rate of 0.06 % per annum but subject to a minimum fee of up to € 15,000 per annum per Sub-Fund. The variable fees shall be calculated quarterly on the average of the month-end Net Asset Value of the previous quarter and paid quarterly in arrears. In addition, the Management Company is entitled to a fee of € 11,000 per annum per Sub-Fund using the commitment approach for the additional performance of risk management and investment compliance services.

Additional fees and other costs charged to the relevant Sub-Fund in relation to any other additional services, as may be agreed from time to time, will be disclosed in this section. In addition, the Management Company shall be entitled to receive from the Company reimbursement for its reasonable disbursements, included but not limited to reasonable out-of-pocket expenses, incurred in the performance of its duties.

In addition, where applicable, any value added tax ("VAT") associated with the above fees and reimbursements will be charged to the Sub-Fund.

For the avoidance of doubt, the Management Company Fee does not cover portfolio management, marketing and distribution services performed by the Investment Managers and the Distributor and/or their delegates. The Company pays separate fees to the Investment Managers and the Distributor as described below or in the respective appendix to this Prospectus.

12.3 Investment Managers

As remuneration for their services, the Investment Managers will receive from the Company a monthly fee ("Investment Management Fee") at a maximum annual rate applicable on the average monthly net assets (as determined according to section 10 “Net Asset Value”) of each Sub-Fund. Such Investment Management Fee will be computed and paid as indicated in the relevant appendix to this Prospectus.

In addition, to assist the Company in the pursuit of the investment strategies and objectives of the Sub-Funds, the relevant Investment Manager may charge research costs which are payable by the Company. Shareholders may receive further information concerning the amount of research costs applicable to the relevant Sub-Fund in which they are invested at the registered office of the Company.

12.4 Investment Management Support Agent and Sub-Investment Management Support Agents

As remuneration for its services, the Investment Management Support Agent will receive from the Company a monthly fee ("Investment Management Support Fee") at a maximum annual rate applicable on the average monthly net assets (as determined according to section 10 “Net Asset Value”) of each Sub-Fund. Such
Investment Management Support Fee will be computed and paid as indicated in the relevant appendix to this Prospectus.

The remuneration of any Sub-Investment Management Support Agent is at the expense of the Investment Management Support Agent.

12.5 Central Administration, Depositary and Registrar and Transfer Agent

The Company will pay to the Depositary, Central Administration and Registrar and Transfer Agent annual fees which will amount to a maximum percentage of 2% of the net asset value per sub-fund, depending on the total net assets of the Company with a minimum fee per sub-fund of EUR 25,000.-. These fees are payable on a monthly basis and do not include any transaction related fees and costs of sub-depositary’s or similar agents. The Depositary, Central Administration and Registrar and Transfer Agent are also entitled to be reimbursed of reasonable disbursements and out of pocket expenses which are not included in the above mentioned fees.

12.6 Other Expenses

The Company bears all its operating expenses, including without limitation the expenses associated with the offering and sale of its Shares, the costs of buying and selling securities and prime brokerage expenses, governmental charges, legal and auditing fees, director fees, expenses of its Board of Directors and Shareholder meetings, interest, printing, reporting and publication expenses, paying agency fees, postage, telephone, telex and facsimile, etc.

12.7 Allocation of Liabilities

Any charges and costs attributable to a specific Sub-Fund will be allocated directly to that Sub-Fund.

The fees and charges that cannot be directly attributed to a specific Sub-Fund shall be charged to the various Sub-Funds in equal parts or shall be allocated equally to the various Sub-Funds in proportion to their respective Net Asset Value, if the amounts in question so require.

12.8 Single Legal Entity

Notwithstanding the fact that, under current law and practice, each Sub-Fund constitutes a separate body of assets and liabilities, the Company is a single legal entity.

Unless otherwise agreed upon with the Company’s creditors, each Sub-Fund shall be exclusively responsible for the debts, liabilities and obligations attributable to it.

12.9 Master/Feeder

Should a Sub-Fund qualify as a master fund of another UCITS, such other UCITS fund will not be charged any subscription fees, redemption fees or contingent deferred sales charges, conversion fees, from the master.

13 INVESTMENT RESTRICTIONS

The Board of Directors shall, based upon the principle of risk spreading, have power to determine the corporate and investment policy for the investments and the course of conduct of the management and business affairs of each Sub-Fund.

By making use of its power to determine the investment policy of each Sub-Fund, the Board of Directors has resolved the following investment restrictions that apply, in principle, for
each Sub-Fund, provided that it is not decided and indicated otherwise in respect of any particular Sub-Fund in the relevant appendix to this Prospectus.

In order to comply with the laws and regulations of the countries where the Shares are offered or placed, the Board of Directors may from time to time impose further investment restrictions to all or several Sub-Funds as shall be compatible with or be in the interest of the Shareholders. Such investment restrictions, if any, will be set out for each Sub-Fund in the relevant appendix to this Prospectus.

The Board of Directors has resolved that:

(1) (a) Each Sub-Fund may invest solely in:

(ix) and acquire securities issued by one or several other Sub-Funds of the Company (the “Target Sub-Fund(s)”), under the following conditions:

- the Target Sub-Fund does not, in turn, invest in the Sub-Fund invested in the Target Sub-Fund;
- not more than 10% of the assets of the Target Sub-Fund may be invested in aggregate in shares of other Sub-Funds of the Company;
the voting rights linked to the securities of the Target Sub-Fund are suspended during the period of investment;

- in any event, for as long as these securities are held by the Company, their value will not be taken into consideration for the calculation of the Net Asset Value for the purposes of verifying the minimum threshold of the net assets imposed by the law of 2010; and

there is no duplication of management/subscription or repurchase fees between those at the level of the Sub-Fund having invested in the Target Sub-Fund and those of the Target Sub-Fund; or

(x) in any other securities, money market instruments, instruments or other assets within the restrictions as shall be set forth by the Board of Directors in compliance with applicable laws and regulations.

(1)(b) In addition the Company may invest a maximum of 10% of the net assets of any Sub-Fund in transferable securities and money market instruments other than those referred to under (1) (a) above.

(2) The Company may hold ancillary liquid assets.

(3) The Company will comply in respect of the net assets of each Sub-Fund with the following investment restrictions:

(a) Risk diversification rules

(i) A Sub-Fund may invest no more than 10% of its net assets in transferable securities or money market instruments issued by the same issuing body.

(ii) The Company may not invest more than 20% of the net assets of any Sub-Fund in deposits made with the same body. The risk exposure of a Sub-Fund to a counterparty in an OTC derivative transaction may not exceed 10% of its net assets when the counterparty is a credit institution referred to in (1) (a) (vi) above or 5% of its net assets in other cases.

(iii) Moreover, where the Company holds on behalf of a Sub-Fund investments in transferable securities and money market instruments of issuing bodies which individually exceed 5% of the net assets of such Sub-Fund, the total of all such investments must not account for more than 40% of the total net assets of such Sub-Fund.

This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.

(iv) Notwithstanding the individual limits laid down in paragraph (3)(a) (i) and (ii), the Company may not combine, where this would lead to investing more than 20% of its assets in a single body, for each Sub-Fund:

- investments in transferable securities or money market instruments issued by that body;

- deposits made with that body; or

- exposure arising from OTC derivative transactions undertaken with that body.

(v) The limit of 10% laid down in paragraph (3) (a) (i) above may be a maximum of 35% in respect to the transferable securities or money market instruments which are issued or guaranteed by a member State of the European Union (a “Member State”), its local authorities, by another eligible state or by public international bodies of which one or more Member States are members. This limit may be a maximum of 25% for certain bonds.
when they are issued by a credit institution which has its registered office in a Member State of the European Union and is subject by law, to special public supervision designed to protect bondholders. In particular, sums deriving from the issue of these bonds must be invested in conformity with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in case of bankruptcy of the issuer, would be used on a priority basis for the repayment of principal and payment of the accrued interest.

If a sub-fund invests more than 5% of its net assets in the bonds referred to in this sub-paragraph and issued by one issuer, the total value of such investments may not exceed 80% of the net assets of the sub-fund.

The transferable securities and money market instruments referred to in paragraph (v) shall not be included in the calculation of the limit of 40% in paragraph (iii).

(vi) The limits set out in paragraphs (i), (ii), (iii), (iv) and (v) may not be aggregated and, accordingly, investments in transferable securities or money market instruments issued by the same issuing body, in deposits or in derivative instruments made with the same issuing body may not, in any event, exceed a total of 35% of any Sub-Fund's net assets.

Companies which are part of the same group for the purposes of the establishment of consolidated accounts, as defined in accordance with directive 83/349/EEC or in accordance with recognised international accounting rules, are regarded as a single body for the purpose of calculating the limits contained in this paragraph (3).

The Company may cumulatively invest up to 20% of the net assets of a Sub-Fund in transferable securities and money market instruments within the same group.

(vii) Notwithstanding the above clauses, where a Sub-Fund has invested in accordance with the principle of risk spreading in transferable securities, money market instruments issued or guaranteed by a Member State, by its local authorities, or by another member State of the OECD or by public international bodies of which one or more Member States are members, such Sub-Fund is authorized to invest up to 100% of its net assets in such securities, provided that the Sub-Fund holds securities from at least six different issues and securities from any one issue do not account for more than 30% of its total net assets.

(viii) Without prejudice to the limits laid down in paragraph 3 (b), the limits provided in the above clauses [ie 3 (a) (i) to 3 (a) (vii)] are raised to a maximum of 20% for investments in shares and/or debt securities issued by the same issuing body if the aim of the investment policy of a sub-fund is to replicate the composition of a certain stock or debt securities index which is sufficiently diversified, represents an adequate benchmark for the market to which it refers, is published in an appropriate manner and disclosed in the relevant Sub-Fund's investment policy.

The 20% limit is raised to 35% where this proves to be justified by exceptional market conditions, in particular on regulated markets where certain transferable securities or money market instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

(ix) The Company may acquire units of the UCITS and/or other UCIs referred to in paragraph 1) (a) (v). Unless otherwise provided in the relevant appendix to this Prospectus, a Sub-Fund may invest no more than 10% of its net assets in units of those UCITS and/or other UCIs.
The underlying investments held by the UCITS or other UCIs in which the Company invests do not have to be considered for the purpose of the investment restrictions set forth under clauses 3) (a) (i) to 3) (a) (vi) above.

If a Sub-Fund invests in units of UCITS or other UCI that are managed, directly or by delegation, by the Management Company or by any other company which is linked to the Management Company by common management or control, or by a substantial direct or indirect holding, the Management Company or other company may not charge subscription or redemption fees on account of the Sub-Fund’s investment in the units of such UCITS and/or other UCI.

If the Company shall decide to invest in respect to a particular Sub-Fund a substantial proportion of its assets in other UCITS and/or UCIs the maximum level of management fees that may be charged to both the Sub-Fund and to the UCITS and/or UCI in which it intends to invest will be disclosed in the appendices to this Prospectus under the detailed information regarding the concerned Sub-Fund.

Based on the exemption rule provided for in Article 77 of the law of 2010 from Article 2(2), first clause of the law of 2010, a sub-fund of the Company may act as a feeder UCITS or master UCITS within the scope of the law of 2010. A feeder UCITS is a UCITS or one of its sub-funds, which invests at least 85% of its assets in units of another UCITS or sub-fund of another UCITS (“master UCITS”).

A feeder UCITS may hold up to 15% of its assets in one or more of the following assets:

- liquid assets held in accordance with Article 41 (2), second sub-paragraph of the law of 2010;
- derivative financial instruments in accordance with Article 41 (1), point g) and Article 42(2) and (3) of the law of 2010 which may only be used for hedging purposes;
- if the feeder UCITS is an investment company, moveable and immovable assets essential for the direct exercise of its operations.

For the purpose of compliance with Article 42(3) of the law of 2010, the feeder UCITS calculates its aggregate risk in connection with derivative financial instruments by reference to a combination of its own direct risk,

- either with the actual risk of the master UCITS in respect of derivative financial instruments in proportion to the investments by the feeder UCITS in the master UCITS, or
- with the potential total maximum risk of the master UCITS with regard to derivatives in accordance with the terms of the contract or articles of association of the master UCITS in proportion to the investments by the feeder UCITS in the master UCITS.

A master UCITS is a UCITS or one of its sub-funds which

- has at least one feeder UCITS among its shareholders,
- is not itself a feeder UCITS, and
- does not hold units in a feeder UCITS.

The following derogations apply in the case of a master UCITS:

- when a master UCITS has at least two feeder UCITS as shareholders, the first indent of Article 2(2) and the second indent of Article 3 of the law of 2010 do not apply, and the master UCITS has the opportunity to acquire capital from other investors,
• if a master UCITS does not procure any capital from public subscription in another Member state than that in which it is domiciled and in which it has only one or more feeder UCITS, the provisions of Chapter XI and Article 108(1), sub-par. 2 of Directive 2009/65/EC do not apply.

The investment of a feeder UCITS domiciled in Luxembourg in a particular master UCITS which exceeds the limit applicable under Article 46 (1) law of 2010 for investments in other UCITS is subject to prior approval from the CSSF.

(x) The risk exposure to a counterparty in an OTC derivative transaction may not exceed 10% of a Sub-Fund’s net assets when the counterparty is a credit institution referred to in 1) (a) (vi) above or 5% of its net assets in other cases.

(xi) The Company shall ensure for each Sub-Fund that the global exposure relating to derivative instruments does not exceed the net assets of the relevant Sub-Fund.

(b) Rules with regard to control

The Company may not acquire

(i) any Shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body;

(ii) more than

- 10% of the non-voting shares of the same issuer;
- 10% of the debt securities of the same issuer;
- 10% of the money market instruments of any single issuer;
- 25% of the units of the same UCITS or other UCI within the meaning of Article 2 (2) of the law of 2010.

These limits under second, third and fourth indents may be disregarded at the time of acquisition, if at that time the gross amount of debt securities or of the money market instruments or the net amount of the instruments in issue cannot be calculated.

The provisions of this paragraph 3 (b) shall not be applicable to transferable securities and money market instruments issued or guaranteed by a Member State or its local authorities or by any other eligible state, or issued by public international bodies of which one or more Member States are members.

These provisions are also waived as regards shares held by the Company in the capital of a company incorporated in a non-Member State of the EU which invests its assets mainly in the securities of issuing bodies having their registered office in that State, where under the legislation of that State, such a holding represents the only way in which the Company can invest in the securities of issuing bodies of that State provided that the investment policy of the company from the non-Member State of the EU complies with the limits laid down in paragraph 3 (a) (i) to 3 (a) (vi); 3 (a) (ix), 3 (a) (x) and 3 (b).

(c) The Company shall comply in respect of the assets of each Sub-Fund with the following investment restrictions:

(i) The Company may not grant loans to or act as guarantor on behalf of third parties.

(ii) The Company may not borrow for the account of any Sub-Fund amounts in excess of 10% of the net assets of that Sub-Fund, any such borrowings to be from banks and to be effected only on a temporary basis, provided that the Company may acquire foreign currencies by means of back to back loans.
(iii) The Company may not carry out uncovered sales of transferable securities, money market instruments or other financial instruments.

(iv) The Company may not make investments in or enter into transactions involving precious metals, commodities or certificates representing these.

(v) The Company may not acquire movable or immovable property.

(4) The Company needs not comply with the limits laid down in the above mentioned investment restrictions when exercising subscription rights attaching to transferable securities or money market instruments which form part of its assets. While ensuring observance of the principle of risk spreading, recently created Sub-Funds may derogate from paragraphs 3 (a) (i) to 3) (a) (ix) included for a period of six months following the date of their creation.

If the limitations in the above paragraphs are exceeded for reasons beyond the control of the Company or as a result of the exercise of subscription rights, the Board of Directors must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interest of its Shareholders.

14 RISK MANAGEMENT

In accordance with Luxembourg laws and regulations, the Management Company has adopted and implemented a risk management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of each Sub-Fund.

The global exposure of a Sub-Fund to financial derivative instruments and efficient portfolio management techniques may not exceed the Net Asset Value of the Sub-Fund. Global exposure is calculated, at least on a daily basis, using either the commitment approach or the value-at-risk or “VaR” approach, as further explained below. Global exposure is a measure designed to limit either the incremental exposure and leverage generated by a Sub-Fund through the use of financial derivative instruments and efficient portfolio management techniques (where the Sub-Fund uses the commitment approach) or the market risk of the Sub-Fund’s portfolio (where the Sub-Fund uses the VaR approach).

As part of the risk management process each Sub-Fund of the Company uses the commitment approach to monitor and measure the global exposure. This approach measures the global exposure related to positions on financial derivative instruments which may not exceed the total net asset value of the portfolio of the relevant Sub-Fund.

The Company may also employ financial derivatives instruments which are intended to provide cover against currency exchange risks in the context of the management of its assets and liabilities, as well as in order to enhance return on investments.

There can be no guarantee that the Company will achieve the objective sought from the use of the financial derivatives instruments as described here below.

14.1 Financial Derivatives Instruments

14.1.1 Options on Transferable Securities

The Company may purchase and sell call and put options on securities provided that these contracts are traded on a regulated market.

The total of premiums paid for the acquisition of call and put options on securities may not exceed 15% of the Net Asset Value of the relevant Sub-Fund.
When selling call options on securities, the relevant Sub-Fund must hold either the underlying securities or matching call options or other instruments which provide sufficient coverage of the commitments resulting from the contracts in question (such as warrants). The underlying securities of all call options sold may not be disposed of as long as these options exist, unless they are covered in turn by matching options or by other instruments which can be used for the same purpose. The same applies also to matching call options or other instruments that the relevant Sub-Fund must hold when it does not have the underlying securities at the time of the sale of the relevant options.

Notwithstanding the foregoing rule, a Sub-Fund may sell uncovered call options on securities that it does not own if, at the time of such sale, the following conditions are met:

- the exercise price of such call options does not exceed 25% of the Net Asset Value of the relevant Sub-Fund;
- the relevant Sub-Fund must at all times be able to cover the positions taken on these sales.

When selling put options, the relevant Sub-Fund must be covered for the full duration of the option contract by liquid resources sufficient to pay for the securities deliverable to it on the exercise of the options.

The total commitment arising on the sale of call and put options (excluding the sale of call options for which the Sub-Fund has adequate coverage) may at no time exceed the total Net Asset Value of that Sub-Fund.

14.1.2 Transactions relating to Futures and Options on Financial Instruments

Except for transactions by mutual agreement which are described in item (b) below, the transactions described hereunder may only relate to contracts which are dealt in on a regulated market.

Subject to the conditions defined here below, such transactions may be undertaken for hedging or other purposes.

(a) hedging operations relating to the risks attached to the general movement of stock markets

As a global hedge against the risk of unfavorable stock market movements, a Sub-Fund may sell futures on stock market indices. For the same purpose, a Sub-Fund may also sell call options or buy put options on stock market indices. The use of these operations assumes that a sufficient correlation exists between the composition of the index used and the corresponding Sub-Fund's portfolio.

In principle, the total commitment relating to futures and option contracts on stock market indices may not exceed the global valuation of securities held by the relevant Sub-Fund in the market corresponding to each index.

(b) transactions relating to interest rate hedging

As a global hedge against interest rate fluctuations, a Sub-Fund may sell interest rate futures contracts.

For the same purpose, it can also sell call options or buy put options on interest rates or make interest rate swaps on a mutual agreement basis with first class financial institutions specialising in this type of transaction.
In principle, the total commitment on financial futures contracts, option contracts and interest rate swaps may not exceed the global valuation of the assets to be hedged held by the Sub-Fund concerned in the currency corresponding to these contracts.

(c) transactions undertaken for purposes other than hedging

Apart from option contracts on securities and contracts relating to currencies, a Sub-Fund may, for a purpose other than hedging, buy and sell futures contracts and option contracts on any type of financial instrument, provided that the total commitment resulting from these purchase and sale transactions together with the total commitment resulting from the sale of call and put options on securities at no time exceeds the total Net Asset Value of the relevant Sub-Fund.

In this context, the concept of the commitments relating to transactions other than options on transferable securities is defined as follows:

- the commitment arising from futures contracts is deemed equal to the value of the underlying net positions payable on those contracts which relate to identical financial instruments (after setting off all sale positions against purchase positions), without taking into account the respective maturity dates and
- the commitment deriving from options purchased and written is equal to the aggregate of the exercise (strike) prices of net uncovered sales positions which relate to single underlying assets without taking into account respective maturity dates.

Sales of call options on securities for which the Sub-Fund has sufficient coverage are not included in the calculation of the total commitment referred to above.

(d) General

The total of the premiums paid to acquire call and put options on securities, together with the total of the premiums paid to acquire options on financial instruments undertaken for purposes other than hedging, may not exceed 15% of the Net Asset Value of the relevant Sub-Fund.

14.1.3 Derivatives Financial Instruments to Hedge Exchange Risks to which the SICAV is Exposed in the Management of its Assets and Liabilities

In order to protect its assets against the fluctuation of currencies, a Sub-Fund may enter into transactions the purpose of which is the sale of future as well as forward foreign exchange contracts, the sale of call options or the purchase of put options in respect of currencies.

These transactions may only be entered into via contracts which are dealt in on a regulated market.

For the same purpose, a Sub-Fund may also sell currencies forward or exchange currencies on a mutual agreement basis with first class financial institutions specialising in this type of transaction.

Provided that it is not decided and indicated otherwise in respect of any particular sub fund in the relevant appendix to this Prospectus, the objective of these transactions presupposes the existence of a direct relationship between these transactions and the assets which are being hedged and implies that, in principle, transactions in a given currency cannot exceed
the total valuation of assets denominated in that currency nor may the duration of these transactions exceed the period for which the respective assets are held.

14.2 Collateral and Reinvestment of Collateral

The Company will not receive any collateral.

As the Company has decided to not accept collateral in order to reduce its counterparty risk, the Company will comply with the limits of 10%, respectively 5% as regards the risk exposure to a counterparty, as set out in article 43 of the law of 2010.

15 TAXATION

The following is given on a general tax perspective and is based on the Company’s understanding of, and advice received on, certain aspects of the law and practice currently in force in Luxembourg as of the date of the Prospectus. It does not purport to be a complete analysis of all possible tax situations that may be relevant to an investment decision. It is included herein solely for preliminary information purposes. It is not intended to be, nor should it be construed to be, legal or tax advice. It is a description of the essential material Luxembourg tax consequences with respect to the Shares and may not include tax considerations that arise from rules of general application or that are generally assumed to be known to Shareholders. This summary is based upon the Luxembourg law and regulations as in effect and as interpreted by the Luxembourg tax authorities on the date of this Prospectus and is subject to any amendments in law (or in interpretation) later introduced, whether or not on a retroactive basis. Prospective investors should consult their own professional advisors with respect to particular circumstances, the effects of state, local or foreign laws to which they may be subject and as to their tax position.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy, impost or other charge or withholding of a similar nature refers to Luxembourg tax law and/or concepts only. Also, please note that a reference to Luxembourg income tax generally encompasses corporate income tax (impôt sur le revenu des collectivités), municipal business tax (impôt commercial communal), a solidarity surcharge (contribution au fonds pour l’emploi) personal income tax (impôt sur le revenu), as well as a temporary equalisation tax (impôt d’équilibrage budgétaire temporaire). Corporate taxpayers may further be subject to net wealth tax (impôt sur la fortune) as well as other duties, levies or taxes. Corporate income tax, municipal business tax, as well as the solidarity surcharge invariably apply to most corporate taxpayers resident of Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax, to the solidarity surcharge and to the temporary equalisation tax. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

15.1 The Company

Under current law and practice, the Company is not liable to any Luxembourg income tax or net worth tax in Luxembourg.
Withholding tax

Under current Luxembourg tax law, there is no withholding tax on any distribution, redemption or payment made by the Company to its Shareholders under the Shares. There is also no withholding tax on the distribution of liquidation proceeds to the Shareholders.

Subscription tax

The Sub-Funds of the Company are liable in Luxembourg to an annual subscription tax ("taxe d’abonnement") of 0.05% of their net assets, payable quarterly and calculated on the basis of the net assets of the Sub-Funds at the end of the relevant quarter.

Such tax rate is reduced to a rate of 0.01% in respect of the assets attributable to such Sub-Funds that are reserved for institutional investors within the meaning of, and as provided for in, Article 174 of the law of 2010. The tax is payable quarterly and calculated on the Net Asset Value of the relevant Sub-Fund at the end of the relevant quarter.

No taxe d’abonnement is paid on the part of the assets of any Sub-Fund invested in other Luxembourg undertakings for collective investment that are subject to the subscription tax under the law of 2010 or under the amended law of 2007 on specialized investment funds.

Other taxes

No stamp duty or other tax is payable in Luxembourg on the issue of Shares in the Company except for fixed registration duty of EUR 75.00.- which was paid upon incorporation or upon any amendments to its articles of incorporation.

The Company may be subject to withholding tax on dividends and interest and to tax on capital gains in the country of origin of its investments. As the Company itself is exempt from income tax, withholding tax levied at source, if any, is not refundable in Luxembourg.

Value added tax

In Luxembourg, regulated investment funds, such as SICAVs, have the status of taxable persons for value added tax ("VAT") purposes. Accordingly, the Company is considered in Luxembourg as a taxable person for VAT purposes without any input VAT deduction right. A VAT exemption applies in Luxembourg for services qualifying as fund management services. Other services supplied to the Company could potentially trigger VAT and require the VAT registration of the Company. As a result of this VAT registration, the Company will be in a position to self-assess the VAT regarded as due in Luxembourg on taxable services (or goods to some extent) purchased from abroad.

No VAT liability arises in principle in Luxembourg in respect of any payments by the Company to its Shareholder, to the extent such payments are linked to their subscription to the Shares and do therefore not constitute the consideration received for taxable services supplied.

15.2 Withholding tax

Under current Luxembourg tax law, there is no withholding tax on any distribution, redemption or payment made by the Company to its Shareholders under the
Shares. There is also no withholding tax on the distribution of liquidation proceeds to the Shareholders.

15.3 Tax implication of the investment into a master fund

To the extent a withholding tax would be levied in the country of origin of a master fund on distributions made by such master fund to a feeder Sub-Fund or capital gains realized by such feeder Sub-Fund with regard to its investment in a master fund, such foreign withholding tax would however not be credited against any corporate income tax (“CIT”) liability in Luxembourg, given the Company is not subject to such CIT. There are no other specific Luxembourg tax implications for a Luxembourg feeder Sub-Fund in relation to its investment into a master fund.

15.4 Exchange of information

Capitalized terms used in this section should have the meaning as set forth in the CRS Law, unless provided otherwise herein.

In addition, Luxembourg signed the OECD’s multilateral competent authority agreement (“Multilateral Agreement”) to automatically exchange information under the CRS. Under this Multilateral Agreement, Luxembourg will automatically exchange financial account information with other participating jurisdictions as of 1 January 2016. The law dated 18 December 2015 CRS-Law implements this Multilateral Agreement, jointly with the DAC Directive (the “CRS-Law”) introducing the CRS in Luxembourg law.

Under the terms of the CRS-Law, the Company may be required to annually report to the Luxembourg tax authority (“LTA”), the name, address, Member State(s) of residence, TIN(s), as well as the date and place of birth of i) each Reportable Person that is an Account Holder within the meaning of CRS-Law, ii) and, in the case of a Passive NFE within the meaning of the CRS-Law, of each Controlling Person(s) that is a Reportable Person. Such information may be disclosed by the LTA to foreign tax authorities.

Additionally, the Company is responsible for the processing of personal data and each Shareholder has a right to access the data communicated to the Luxembourg tax authorities and to correct such data (if necessary). Any data obtained by the Company are to be processed in accordance with the Luxembourg law dated 2 August 2002 on the protection of persons with regard to the processing of personal data, as amended.

The Company’s ability to satisfy its reporting obligations under the CRS-Law will depend on each Shareholder providing the Company with the information, including information regarding direct or indirect owners of each Shareholder, along with the required supporting documentary evidence. Upon request of the Company, each Shareholder shall agree to provide the Company such information.

Although the Company will attempt to satisfy any obligation imposed on it to avoid any taxes or penalties imposed by the CRS-Law, no assurance can be given that
the Company will be able to satisfy these obligations. If the Company becomes subject to a tax or penalty as result of the CRS-Law, the value of the Interest held by the Shareholders may suffer material losses.

Any Shareholder that fails to comply with the Company’s documentation requests may be charged with any taxes and penalties imposed on the Company or the Manager attributable to such Shareholder’s failure to provide the information and the Company may, in its sole discretion, redeem the Interest of such Shareholder.

Shareholders should consult their own tax advisor or otherwise seek professional advice regarding the impact of the CRS-Law on their investment.

15.5 FATCA

Capitalized terms used in this section should have the meaning as set forth in the IGA (as defined below), unless provided otherwise herein.

As part of the process of implementing FATCA, Luxembourg has entered into a Model I Intergovernmental Agreement (“IGA”), implemented by the Luxembourg law dated 24 July 2015 which requires Financial Institutions located in Luxembourg to report, when required, information on Financial Accounts held by U.S. Specified Persons (within the meaning of the IGA) and non-U.S. financial institutions that do not comply with FATCA and, if any, to the competent authorities.

Being established in Luxembourg and subject to the supervision of the CSSF in accordance with the 2007 Law, the Company may be treated as a Foreign Financial Institution (within the meaning of the IGA).

This status includes the obligation of the Company to regularly obtain and verify information on all of its Shareholders. Upon request of the Company, each Shareholder shall agree to provide certain information, including, in case of a Non-Financial Foreign Entity (“NFFE”) (within the meaning of the IGA), the direct or indirect owners above a certain threshold of ownership of such NFFE, along with the required supporting documentation. Similarly, each Shareholder shall agree to actively provide to the Company within thirty days any information that would affect its status, as for instance a new mailing address or a new residency address.

FATCA and the IGA may result in the obligation for the Company to disclose the name, address and taxpayer identification number (if available) of the Shareholder as well as information such as account balances, income and gross proceeds (non-exhaustive list) to the Luxembourg tax authorities (administration des contributions directes) under the terms of the IGA. Such information will be onward reported by the Luxembourg tax authorities to the U.S. Internal Revenue Service.

Additionally, the Company is responsible for the processing of personal data and each shareholder has a right to access the data communicated to the Luxembourg tax authorities and to correct such data (if necessary). Any data obtained by the Company are to be processed in accordance with the Luxembourg law dated 2 August 2002 on the protection of persons with regard to the processing of personal data, as amended.

Although the Company will attempt to satisfy any obligation imposed on it to avoid imposition of FATCA withholding tax, no assurance can be given that the Company will be able to satisfy these obligations. If the Company becomes subject to a withholding tax as result of the FATCA regime, the value of the Interests held by the Shareholders may suffer material losses. A failure for the Company to obtain such information from each Shareholder and to transmit it to the Luxembourg tax
authorities may trigger the 30% withholding tax to be imposed on payments of U.S. source income and on proceeds from the sale of property or other assets that could give rise to U.S. source interest and dividends.

A Shareholder that fails to comply with such documentation requests may be charged with any taxes imposed on the Company attributable to such Shareholder’s failure to provide the information and the Company may, in its sole discretion, redeem the Interests of such Shareholder.

All prospective investors and Shareholders should consult with their own tax advisors regarding the possible implications of FATCA on their investment in the Company.

16 MEETINGS AND REPORTS

The annual general meeting of Shareholders of the Company is held at the registered office of the Company or at such other place in Luxembourg as indicated in the convening notice on the fourth Tuesday of the month of May of each year at 9.00 a.m., or if any such day is not a bank Business Day in Luxembourg, on the next following bank Business Day in Luxembourg.

Such notices will include the agenda and specify the time and place of the meeting and the conditions of admission, and will refer to the requirements of Luxembourg law with regard to the necessary quorum and majorities required for the meeting. The requirements as to attendance, quorum and majorities at all general meetings will be those laid down in Articles 67 and 67-1 of the law of 10th August, 1915 (as amended) of the Grand Duchy of Luxembourg and in the Articles of Incorporation of the Company.

Each Share is entitled to one vote.

Resolutions of meetings of Shareholders will apply to the Company as a whole and to all Shareholders of the Company, provided that any amendment affecting the rights attached to the Shares of any Sub-Fund(s) and the rights of the holders of such Shares may further be submitted to a prior vote of the Shareholders of the relevant Sub-Fund(s) as far as the Shareholders of the Fund(s) in question are present or represented.

Except as otherwise required by law or as otherwise provided in the Articles of Incorporation of the Company, resolutions at a meeting of Shareholders duly convened will be passed by a simple majority of those present or represented and voting.

The Board of Directors may determine all other conditions that must be fulfilled by the Shareholders in order for them to take part in any Shareholder’s meeting.

The Financial Year-end of the Company shall be the last day of December of each year.

The audited annual reports will be published within four months after the end of the Financial Year and the unaudited semi-annual reports will be published within two months after the end of the relevant period. Such reports will be made available at the registered office of the Company during normal business hours.
17 LIQUIDATION AND MERGER

17.1 Liquidation - Dissolution of the Company

If the capital of the Company falls below two-thirds of the minimum capital required by the law of 2010, the Directors must submit the question of the dissolution of the Company to a general meeting of Shareholders for which no quorum shall be prescribed and which shall decide on the matter by a simple majority of the Shares present or represented at the meeting.

If the capital of the Company falls below one-fourth of minimum capital required, the Directors must submit the question of the dissolution of the Company to a general meeting of Shareholders for which no quorum shall be prescribed; dissolution may be resolved by Shareholders holding one-fourth of the Shares present or represented at the meeting.

The meeting must be convened so that it is held within a period of forty days from the ascertainment that the total Net Asset Value of the Company has fallen below two-thirds or one-fourth of the minimum capital, as the case may be.

In the event of voluntary liquidation, the operations shall be conducted by one or several liquidators, who shall be appointed by extraordinary general meeting of Shareholders which shall also determine their powers and compensation.

The net product of the liquidation (or also “liquidation proceeds”) relating to each Sub-Fund shall be distributed to the Shareholders in the relevant Sub-Fund in the proportion of the number of Shares which they hold in such Sub-Fund.

Should the Company be voluntarily or compulsorily liquidated, its liquidation shall then be carried out in accordance with the provisions of the law which specifies the steps and measures to be taken to enable Shareholders to participate in the liquidation distribution(s) and in this connection provides for deposit in escrow at the Caisse de Consignations of any such amounts which have not been claimed by any Shareholder as at the close of the liquidation.

Amounts not claimed from escrow within the prescription period are liable to be forfeited in accordance with the provisions of Luxembourg law.

17.2 Liquidation of Sub-Funds

The Board of Directors may decide to liquidate one or several Sub-Fund(s) or Class(es) by cancellation of the relevant Shares and refunding to the Shareholders of such Sub-Fund(s) the full Net Asset Value of their Shares.

Such decisions may be taken

(a) if the net assets of a given Sub-Fund have not reached, or fallen below EUR 5 million or the equivalent in the reference currency of such Sub-Fund, or

(b) in such cases where substantial unfavorable changes of the social, political or economical situation in countries where investments for the relevant Sub-Fund(s) are made, or Shares of the relevant Sub-Fund(s) are distributed.

Notices of such decisions will be published according to section 18 “Publications” and sent to the holders of registered Shares by mail to their address in the register of Shareholders.
In case of the liquidation of a Sub-Fund or Class by decision of the Directors, the Shareholders of the Sub-Fund(s) or Class(es) to be liquidated may continue to ask for the redemption of their Shares until the effective date of the liquidation. For redemptions made under these circumstances, the Company will apply a Net Asset Value taking into consideration the liquidation fees and will not charge any other fees. The liquidation proceeds not claimed by the Shareholders entitled thereto as at the close of the operations of liquidation will be deposited with the Caisse des Consignations in Luxembourg.

Liquidation or Reorganization of a master fund

In accordance with the provisions of the law of 2010 governing feeder UCITS, a feeder fund shall be dissolved and liquidated if the relevant master fund is liquidated, divided into two or more UCITS or merged with another UCITS, except to the extent permitted, and in compliance with the conditions set out under the law of 2010 and the CSSF Regulation 10-05.

17.3 Merger

17.3.1 Mergers decided by the Directors

The Directors may decide to proceed with a merger (within the meaning of the law of 2010) of the Company or of one of the Sub-Funds, either as receiving or absorbed UCITS or Sub-Fund, subject to the conditions and procedures imposed by the law of 2010, in particular concerning the merger project and the information to be provided to the Shareholders, as follows:

a) Merger of the Company

The Directors may decide to proceed with a merger of the Company, either as receiving or absorbed UCITS, with:

- another Luxembourg or foreign UCITS (the “New UCITS”), or

and, as appropriate, to redesignate the Shares of the Company as Shares of this New UCITS, or of the relevant sub-fund thereof as applicable.

In case the Company is the receiving UCITS (within the meaning of the law of 2010), solely the Directors will decide on the merger and effective date thereof.

In case the Company is the absorbed UCITS (within the meaning of the law of 2010), and hence ceases to exist, the general meeting of the Shareholders has to approve, and decide on the effective date of such merger by a resolution adopted with no quorum requirement and at a simple majority of the votes cast at such meeting.

b) Merger of Sub-Funds

The Directors may decide to proceed with a merger of any Sub-Fund, either as receiving or absorbed Sub-Fund, with:

- another existing Sub-Fund within the Company or another sub-fund within a New UCITS (the “New Sub-Fund”), or
- a New UCITS,

and, as appropriate, to redesignate the Shares of the Sub-Fund concerned as Shares of the New UCITS, or of the New Sub-Fund as applicable.
17.3.2 Merger decided by the Shareholders

Notwithstanding the provisions under section 17.3.1 “Mergers decided by the Directors”, the general meeting of Shareholders may decide to proceed with a merger (within the meaning of the law of 2010) of the Company or of one of the Sub-Funds, either as receiving or absorbed UCITS or Sub-Fund, subject to the conditions and procedures imposed by the law of 2010, in particular concerning the merger project and the information to be provided to the Shareholders, as follows:

a) Merger of the Company

The general meeting of the Shareholders may decide to proceed with a merger of the Company, either as receiving or absorbed UCITS, with:

- a New UCITS, or
- a new sub-fund thereof.

The merger decision shall be adopted by the general meeting of Shareholders with no quorum requirement at a simple majority of the votes validly cast.

b) Merger of the Sub-Funds

The general meeting of the Shareholders of a Sub-Fund may also decide to proceed with a merger of the relevant Sub-Fund, either as receiving or absorbed Sub-Fund, with:

- any New UCITS, or
- a New Sub-Fund,

by a resolution adopted with no quorum requirement at a simple majority of the votes validly cast.

In all the merger cases under 17.3 above, the Shareholders will in any case be entitled to request, without any charge other than those retained by the Company or the Sub-Fund to meet disinvestment costs, the repurchase or redemption of their Shares, in accordance with the provisions of the law of 2010.

18 PUBLICATIONS

The Net Asset Values and the Issue, Conversion and Redemption Prices of the Shares in any Sub-Fund will be made public and available at the registered office of the Company. The Company will further arrange for regular publication of the Net Asset Values in such newspapers as the Board of Directors may decide on.

The investment objective and policy of the Master Fund I, its organisation and risk profile are summarised in the section “Master Fund I” below.

The residual assets of the Sub-Fund will consist in ancillary liquid assets, as described above, as may be required from time to time for dealing liquidity purposes and payment of costs and expenses of the Sub-Fund. The Sub-Fund intends to minimize the level of ancillary liquid assets held for these purposes. The Sub-Fund will not enter into financial derivative instruments other than FX forwards.

If and to the extent that voting rights attached to units of the Master Fund I will be exercised on behalf of the Sub-Fund, a summary description of the strategies followed in the exercise of such rights, as well as the actions taken on the basis of those strategies, will be made available to Shareholders upon their specific request addressed to the Company.

It is expected that the performance of the Sub-Fund will be broadly in line with that of the Master Fund I subject to its level of investment in the Master Fund I and safe for additional fund expenses at the level of the Sub-Fund which will affect its performance.

Investors should note that investment in the Sub-Fund is not suitable for UCITS since the Sub-Fund invests at least 85% of its assets in the Master Fund I.

2 Master Fund I

The Master Fund I is a collective investment institution structured as separate capital with no legal personality, established and existing under the laws of Spain, registered with the Spanish supervisory authority Comisión Nacional del Mercado de Valores (CNMV) under registration number 46. It was established on 21 January 1987 and is regulated and authorised by the CNMV as a UCITS fund.

The Master Fund I has been authorised by the CNMV as a “master UCITS” within the meaning of the relevant provisions of Directive 2009/65/EC. As a consequence, the Master Fund I must, at all times, (i) have at least one feeder UCITS among its unitholders, (ii) not itself become a feeder UCITS, and (iii) not hold shares or units of a feeder UCITS.

2.1 Investment objective and policy of the Master Fund I:

Management uses the Ibex 35 as a benchmark index.

A minimum of 75% of the Master Fund’s I total exposure and 90% of the equity will be equity listed in Spanish markets and assets from Spanish companies listed in other markets, of mainly high capitalisation, without
discarding those of low capitalisation. The remainder will be invested in fixed-income assets, specifically public or private fixed income, excluding deposits and money market instruments, listed or otherwise, with a maximum exposure of 25% of the total Master Fund I. The average term of the fixed-income portfolio is not predetermined. Issues will be required to have a minimum average credit rating (minimum BBB-). However, up to 100% may always be invested in assets with a rating equal to or greater than that of the Kingdom of Spain at all times. The exposure to currency risk will not exceed 30%. The Master Fund I will not invest more than 10% of its equity in units of financial collective investment undertakings (CIU) which are qualifying assets, harmonised or otherwise, belonging or otherwise to the manager’s group, with an investment policy consistent with that of the Master Fund I.

The maximum exposure to market risk through derivatives is the amount of the equity.

More than 35% of the equity may be invested in securities issued or guaranteed by a Member State of the European Union, an autonomous community, a local territory, the international bodies in which Spain is a member and states whose solvency ratio is not lower than that of the Kingdom of Spain.

The Master Fund I may operate with derivative financial instruments traded in organised derivative markets for hedging and investment purposes and with OTC derivatives for hedging purposes. This operation entails risks due to the possibility that the hedging is not perfect, the leverage involved and the lack of a clearing house.

2.2 Profile of the typical investor of the Master Fund I

The Master Fund I may be appropriate for investors who want to be exposed to equities listed on Spanish markets and assets issued by Spanish companies listed on other markets, mainly high capitalisation, without discarding those of low capitalisation.

The ability of the Sub-Fund to accept and process orders for subscription and redemption is dependent on the Master Fund I. In the event that the Master Fund I fails or refuses to process an order for subscription or redemption, or fails to settle an order for redemption, the Sub-Fund shall not be able to process an investor’s subscription or redemption order, or pay redemption monies.

In the event that the Master Fund I is closed to subscriptions and/or redemptions, or during any period in which the calculation of the net asset value of the Master Fund I has been suspended, the Sub-Fund shall not be able to process any orders for subscription or redemptions it receives and the Board of Directors is likely to resolve to suspend the Net Asset Value calculation in those circumstances, in accordance with Section 10.2 “Suspension of the determination of the Net Asset Value”.

Investors should review the prospectus of the Master Fund I for a full description of the circumstances in which subscriptions and/or redemptions of the Master Fund I may be suspended or may otherwise refuse to accept orders for subscription or redemption.

As a feeder fund of the Master Fund I, the Sub-Fund will be subject to specific risks associated with its investment into the Master Fund I as well as specific risks incurred at the level of the Master Fund I and its investments. If the Master Fund I invests in a particular asset category, investment strategy or financial or economic market, the Sub-Fund will then become more susceptible to fluctuations in value resulting from adverse economic conditions affecting the performance of that particular asset category, investment strategy or financial or economic market.

Therefore, before investing in Shares of the Sub-Fund, prospective investors should carefully read the description of the risk factors relating to an investment in the Master Fund I, as disclosed in the prospectus of the Master Fund I which is available free of charge from the Company as well as on the website www.edm.es.

In addition to the above risk factors, prospective investors in Shares of the Sub-Fund should consider the following risks associated with the Sub-Fund's investment in the Master Fund I.

Liquidity and Valuation Risk

It is intended that the Sub-Fund will invest substantially all of its assets in the Master Fund I, save for a residual cash amount which may be required from time to time for dealing liquidity purposes and payment of costs and expenses of the Sub-Fund.

The Net Asset Value of the Sub-Fund will mainly depend on the net asset value of the Master Fund I.

Consequently, the Net Asset Value per Share of the Sub-Fund may be determined only after the net asset value of the Master Fund I has been determined, and the number of Shares to be issued to, exchanged or redeemed from, an investor in the Sub-Fund may not be determined until the net asset value per unit of the Master Fund I is determined.

The rules applied to calculate the Net Asset Value per Share of the Sub-Fund, as described above under the section 10 “Net Asset Value”, presume the Sub-Fund’s ability to value its
investment in the Master Fund I. In valuing such investment holdings, the Sub-Fund may rely on financial information provided by the management company of the Master Fund I. Independent valuation sources such as exchange listing may not be available for the Master Fund I.

Operational and Legal Risks

The main operational and legal risks associated with the Sub-Fund's investment in the Master Fund I include, without being limited to, the Sub-Fund's access to information on the Master Fund I, coordination of dealing arrangements between the Company and the Master Fund I, the occurrence of events affecting such dealing arrangements, the communication of documents from and to the Master Fund I to and from the Sub-Fund, the coordination of the involvement of the respective depositary and auditor of the Sub-Fund and the Master Fund I and the identification and reporting of investment breaches and irregularities by the Master Fund I.

Such operational and legal risks will be mitigated and managed by the Depositary and the auditor of the Company, as applicable, in coordination with the management company, the depositary, and the auditor of the Master Fund I. A number of documents and/or agreements are in place to that effect, including (1) information sharing agreement between the Company and the Master Fund I, (2) an information sharing agreement between the Depositary and the depositary of the Master Fund I, and (3) an information sharing agreement between the auditor of the Company and the auditor of the Master Fund I.

Concentration Risk and Market Risk

Given the feeder nature of the Sub-Fund it will naturally be concentrated in the Master Fund I. Therefore, concentration risks and market risks will mainly occur at the level of the Master Fund I. In this respect, investors should carefully read the risks associated with an investment in the Master Fund I, as described in the prospectus of the Master Fund I.

Investment Management Risk

The investment performance of the Sub-Fund is substantially dependent on the investment performance of the Master Fund I and, therefore, on the services provided by certain individuals to the Master Fund I. In the event of the death, incapacity, departure, insolvency or withdrawal of these individuals, the performance of the Master Fund I and, consequently, the Sub-Fund, may be adversely affected.

The number of Shares to be issued to, exchanged or redeemed from an investor in the Sub-Fund may not be determined until the net asset value per unit of the Master Fund II is assessed.

The rules applicable to calculate the Net Asset Value per Share of the Sub-Fund, as described above under the section 10 “Net Asset Value”, presume the Sub-Fund’s ability to value its investment in the Master Fund II. In valuing such investment holdings, the Sub-Fund may rely on financial information provided by the management company of the Master Fund II. Independent valuation sources such as exchange listing may not be available for the Master Fund II.
